

### Physics Club:

Physics Club consists of students from the Department of Physics who endeavor to keep up with the new trends in the world of Physics.

### Vision:

To be a source for scientific innovations in the field of Physics in order to contribute to the community.

### Mission:

To discover and encourage the scientific talents and capabilities among students and utilize them to serve the community.

### Objectives:

1. To link Physics to our lives and introduce its applications.
2. To provide an environment that fosters and develop talents.
3. To inculcate in students the spirit of team work.
4. To improve the scientific and occupational level of students through organizing workshops and lectures.
5. To deepen the Islamic values of students through guiding their behaviors.
