

SUSTAINABILITY REPORT

Sustainable development is the responsibility of every part of society across the world. To achieve sustainable development goals, PNU have linkages across the selected 17 SDGs at the local, national and international levels. Thus, PNU is streamlining the implementation of these SDGs at the same time stimulates all its stakeholders to be part of this adventurous and competitive scientific world that would bring forth real achievements and sustainable development based of United Nation's Sustainable Development Goals of 2015. Therefore, PNU has built a strong partnership with the following entities
