The Kingdom of Saudi Arabia is keen to provide equal opportunities for all segments of society and pays great attention to the care and follow-up of the educational, health, and economic needs of the children of martyrs, low income, and special needs.

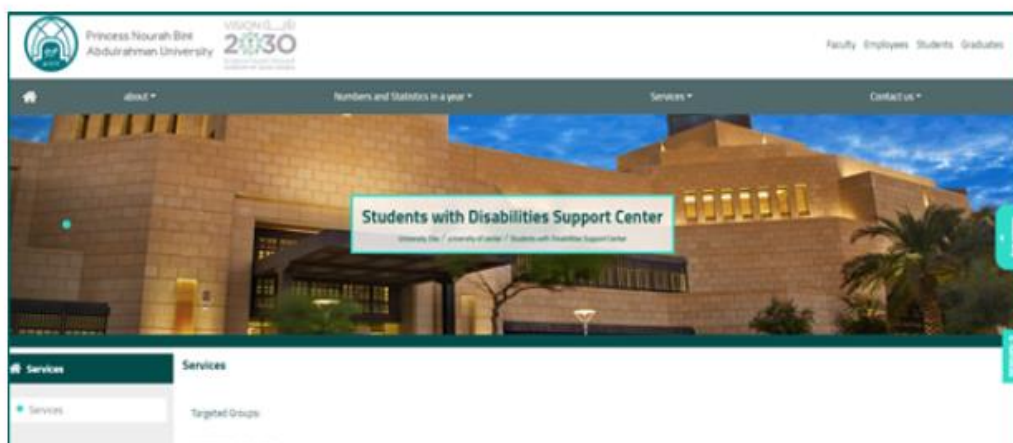

The Kingdom has taken many measures that will enhance social protection for people with special cases and achieve their full social integration into society. This protection is organized through the creation of a legal, institutional, and program framework that provides social protection for them.

The National Education Development Strategy also emphasizes providing equal learning opportunities and support systems for all students, through the following policies:

- Developing policies related to identifying and classifying students with special needs.
- Developing scientific tools that identify and evaluate students with special needs.
- Awareness and perception development and building of policies and frameworks; To integrate students with mental and physical challenges into general education.
- Creating equal enrolment opportunities for equal and appropriate education in schools for students with all special needs without regard to gender, physical social background, geographical location, or the nature of the special needs.
- Providing customized learning opportunities that meet the special needs of talented and creative students.
- The introduction of school support systems for students at risk.
- Providing other or alternative opportunities for lifelong learning for those outside the educational system or who have not enrolled in school.

Disabilities support Center

Princess Nourah bint Abdulrahman University (PNU) has a Disabilities support Center that guarantees all students with different disabilities the proper development of their activities in the development of academic programs.

Students with Disabilities Support Center

Vision, Mission and Objectives

Vision:

To enable students with special needs to get university education of an international quality and competitive distinction.

Mission:

To help students with special needs and provide them with comprehensive support according to their educational requirements by creating an academic environment in accordance with their own needs to achieve success in university learning and qualify them for the labor market.

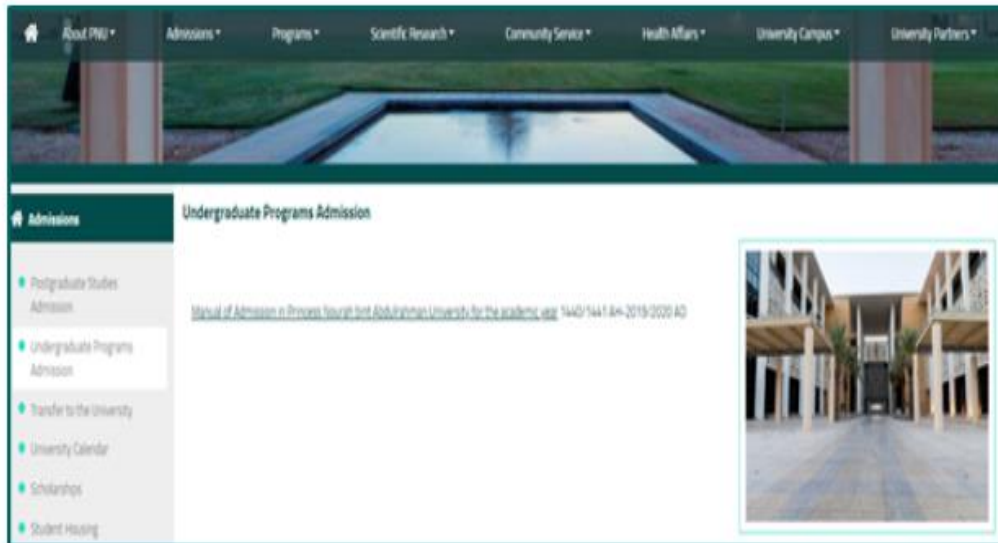

Values:

Professionalism, integrity, justice, empowerment, perseverance and cooperation.

Objectives:

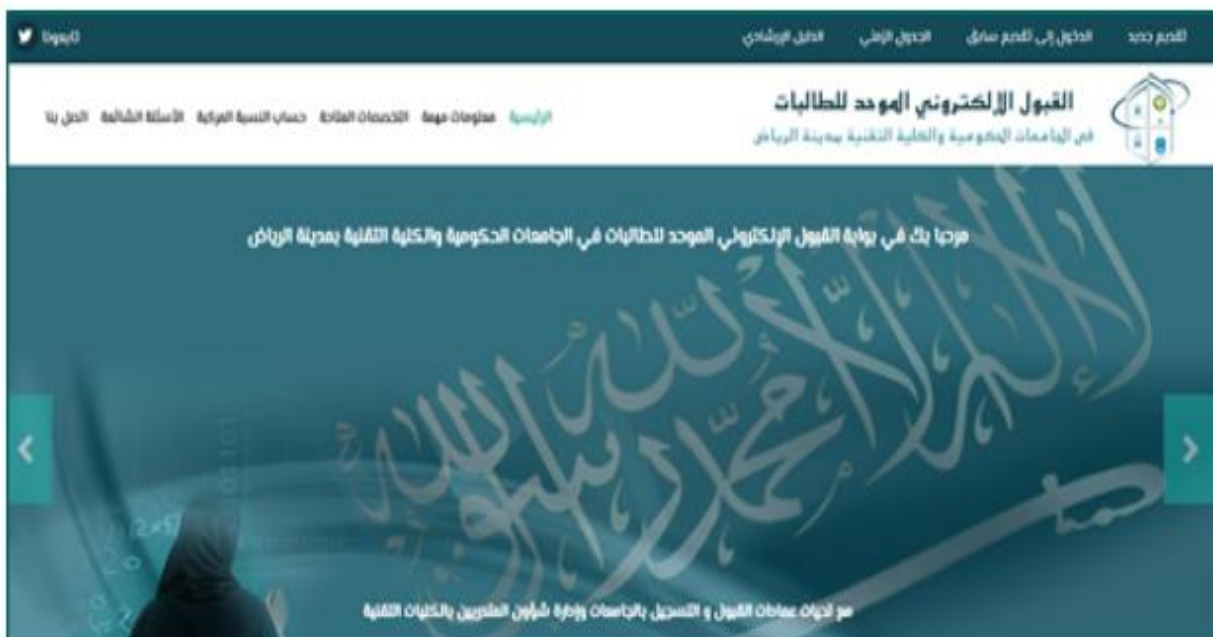

- To provide academic support for students with special needs.
- To raise college society's awareness about the rights of people with special needs.
- To improve facilities readiness to meet students needs.
- To provide advisory services to faculty members regarding teaching students with special needs.
- To provide training courses to prepare students for future professions.
- To create community partnerships with the concerned institutions in order to support their integration into the labor market.

Princess Nourah University from the undergraduate admission office, through its policy, selects the future members of the university in the most appropriate way, respecting the diversity and disabilities that the applicants may present.

Undergraduate admission office

As a mechanism for recruiting students from underrepresented group, PNU follows the procedures of the Technical College of Riyadh through the unified electronic admission portal for female students
